Position: SDE new grad

▼

Question 1: <https://leetcode.com/problems/merge-sorted-array/>

Question 2: <https://leetcode.com/problems/simplify-path/>

For the first question I solved using additional $O(N)$ array. But they asked to solve using $O(1)$ space.

You need to solve both questions in 40 minutes.

There is a 5 minutes for the questions at the end of the interview.
